

ST CHARLES' RC PRIMARY SCHOOL

ONLINE SAFETY POLICY

"Bring Forth Christ"

Updated: January 2020

By: Mr Patrick Kennedy

Approved by Governors: January 2020

The Head teacher is responsible for monitoring this policy

| Review Date: | 30/04/2020 |

Review of this Policy

This Online Safety policy has been reviewed by the Acting Head teacher and shared with the:

- Online Safety Lead
- Staff
- Governors
- Parents and Carers
- Children

Schedule for Development / Monitoring / Review

| | |
|---|---|
| This Online Safety policy was approved by the Governing Body Governors Curriculum Committee on: | <i>Thursday 23rd January 2020</i> |
| The implementation of this Online Safety policy will be monitored by the: | <i>Online Safety Lead</i> |
| Monitoring will take place at regular intervals: | <i>Termly</i> |
| The Governors Curriculum Committee will receive a report on the implementation of the Online Safety Policy generated by the Online Safety Lead at regular intervals: | <i>Termly</i> |
| The Online Safety Policy will be reviewed annually, or more regularly in the light of any significant new developments in the use of the technologies, new threats to online safety or incidents that have taken place. The next anticipated review date will be: | <i>February 2021</i> |
| Should serious online safety incidents take place, the following external persons / agencies should be informed: | <i>LA Safeguarding Officer, LADO, CSC, Police</i> |

The school will monitor the impact of the policy using:

- Logs of reported incidents
- Monitoring logs of internet activity (including sites visited) / filtering
- Internal monitoring data for network activity
- Surveys / questionnaires of
 - pupils
 - parents / carers
 - staff

Scope of the Policy

This policy applies to all members of the school community (including staff, pupils, volunteers, parents / carers, visitors) who have access to and are users of school digital technology systems, both in and out of the school.

The Education and Inspections Act 2006 empowers Headteachers to such extent as is reasonable, to regulate the behaviour of pupils when they are off the school site and empowers members of staff to impose disciplinary penalties for inappropriate behaviour. This is pertinent to incidents of online-bullying or other Online Safety incidents covered by this policy, which may take place outside of the school, but is linked to membership of the school. The 2011 Education Act increased these powers with regard to the searching for and of electronic devices and the deletion of data (see appendix for template policy). In the case of both acts, action can only be taken over issues covered by the published Behaviour Policy.

The school will deal with such incidents within this policy and associated behaviour and anti-bullying policies and will, where known, inform parents / carers of incidents of inappropriate Online Safety behaviour that take place out of school.

Roles and Responsibilities

The following section outlines the online safety roles and responsibilities of individuals and groups within the school:

Governors

Governors are responsible for the approval of the Online Safety Policy and for reviewing the effectiveness of the policy. This will be carried out by the Governors Curriculum Committee receiving regular information about online safety incidents and monitoring reports. A member of the Governing Body has taken on the role of Safeguarding Governor. The role of the Safeguarding Governor will include:

- regular meetings with the Online Safety Lead
- regular monitoring of online safety incident logs
- regular monitoring of filtering / change control logs
- reporting to relevant Governors

Headteacher and Senior Leaders

- The Headteacher has a duty of care for ensuring the safety (including online safety) of members of the school community, though the day to day responsibility for online safety will be delegated to the Online Safety Lead.
- The Headteacher and (at least) another member of the Senior Leadership Team should be aware of the procedures to be followed in the event of a serious online safety allegation being made against a member of staff (see flow chart on dealing with online safety incidents - included in a later section - “Responding to incidents of misuse” and relevant Local Authority disciplinary procedures).
- The Headteacher / Senior Leaders are responsible for ensuring that the Online Safety Lead and other relevant staff receive suitable training to enable them to carry out their online safety roles and to train other colleagues, as relevant.
- The Senior Leadership Team / Senior Management Team will receive regular monitoring reports from the Online Safety Lead.

Online Safety Lead

- takes day to day responsibility for online safety issues and has a leading role in establishing and reviewing the school online safety policies / documents
- ensures that all staff are aware of the procedures that need to be followed in the event of an online safety incident taking place.
- provides training and advice for staff
- liaises with the Local Authority
- liaises with school technical staff
- receives reports of online safety incidents and creates a log of incidents to inform future online safety developments
- meets regularly with Online Safety Governor to discuss current issues, review incident logs and filtering / change control logs
- attends relevant meeting / committee of Governors (where appropriate)
- reports regularly to Senior Leadership Team

Network Manager / Technical staff

The Network support Staff are responsible for ensuring:

- that the school’s technical infrastructure is secure and is not open to misuse or malicious attack
- that the school meets required online safety technical requirements and any Local Authority Guidance
- that users may only access the networks and devices through a properly enforced password protection policy, in which passwords are regularly changed
- that they keep up to date with online safety technical information in order to effectively carry out their online safety role and to inform and update others as relevant
- that the use of the network is regularly monitored in order that any misuse / attempted misuse can be reported to the Headteacher / Senior Leader; Online Safety Lead for investigation / action / sanction
- that monitoring software / systems are implemented and updated as agreed in school policies

Teaching and Support Staff

Are responsible for ensuring that:

- they have an up to date awareness of online safety matters and of the current school Online Safety Policy and practices
- they have read, understood and signed the Staff Acceptable Use Policy / Agreement (AUP)
- they report any suspected misuse or problem to the Headteacher / Senior Leader ; Online Safety Lead for investigation / action / sanction

- all digital communications with pupils / parents / carers should be on a professional level and only carried out using official school systems
- online safety issues are embedded in all aspects of the curriculum and other activities
- pupils understand and follow the Online Safety Policy and acceptable use policies
- pupils have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- they monitor the use of digital technologies, mobile devices, cameras etc in lessons and other school activities (where allowed) and implement current policies with regard to these devices
- in lessons where internet use is pre-planned pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches

Designated Safeguarding Lead

Should be trained in Online Safety issues and be aware of the potential for serious child protection / safeguarding issues to arise from:

- sharing of personal data
- access to illegal / inappropriate materials
- inappropriate on-line contact with adults / strangers
- potential or actual incidents of grooming
- online-bullying

Pupils:

- are responsible for using the school digital technology systems in accordance with the Pupil Acceptable Use Agreement
- have a good understanding of research skills and the need to avoid plagiarism and uphold copyright regulations
- need to understand the importance of reporting abuse, misuse or access to inappropriate materials and know how to do so
- will be expected to know and understand policies on the use of mobile devices and digital cameras. They should also know and understand policies on the taking / use of images and on online-bullying.
- should understand the importance of adopting good online safety practice when using digital technologies out of school and realise that the school's Online Safety Policy covers their actions out of school, if related to their membership of the school

Parents / Carers

Parents / Carers play a crucial role in ensuring that their children understand the need to use the internet / mobile devices in an appropriate way. The school will take every opportunity to help parents understand these issues through parents' evenings, newsletters, letters, website / Learning Platform and information about national / local online safety campaigns / literature. Parents and carers will be encouraged to support the school in promoting good online safety practice and to follow guidelines on the appropriate use of:

- digital and video images taken at school events
- access to parents' sections of the website / Learning Platform and on-line pupil records
- their children's personal devices in the school (where this is allowed)

Community Users

Community Users who access school systems / website / Learning Platform as part of the wider *school* provision will be expected to sign a Community User AUA before being provided with access to school systems.

Policy Statements

Education – Pupils

Whilst regulation and technical solutions are very important, their use must be balanced by educating pupils to take a responsible approach. The education of pupils in online safety / digital literacy is therefore an essential part of the school's online safety provision. Children and young people need the help and support of the school to recognise and avoid online safety risks and build their resilience.

Online safety should be a focus in all areas of the curriculum and staff should reinforce online safety messages across the curriculum. The online safety curriculum should be broad, relevant and provide progression, with opportunities for creative activities and will be provided in the following ways:

- A planned online safety curriculum should be provided as part of Computing / PHSE / other lessons and should be regularly revisited
- Key online safety messages should be reinforced as part of a planned programme of assemblies and tutorial / pastoral activities
- Pupils should be taught in all lessons to be critically aware of the materials / content they access on-line and be guided to validate the accuracy of information.
- Pupils should be taught to acknowledge the source of information used and to respect copyright when using material accessed on the internet
- Pupils should be supported in building resilience to radicalisation by providing a safe environment for debating controversial issues and helping them to understand how they can influence and participate in decision-making (inline with the PREVENT strategy).
- Pupils should be helped to understand the need for the pupil Acceptable Use Agreement and encouraged to adopt safe and responsible use both within and outside school.
- Staff should act as good role models in their use of digital technologies, the internet and mobile devices
- in lessons where internet use is pre-planned, it is best practice that pupils should be guided to sites checked as suitable for their use and that processes are in place for dealing with any unsuitable material that is found in internet searches.
- Where pupils are allowed to freely search the internet, staff should be vigilant in monitoring the content of the websites the young people visit.
- It is accepted that from time to time, for good educational reasons, students may need to research topics (eg racism, drugs, discrimination) that would normally result in internet searches being blocked. In such a situation, staff can request that the Technical Staff (or other relevant designated person) can temporarily remove those sites from the filtered list for the period of study. Any request to do so, should be auditable, with clear reasons for the need.

Education – Parents / Carers

Many parents and carers have only a limited understanding of online safety risks and issues, yet they play an essential role in the education of their children and in the monitoring / regulation of the children's online behaviours. Parents may underestimate how often children and young people come across potentially harmful and inappropriate material on the internet and may be unsure about how to respond.

The school will therefore seek to provide information and awareness to parents and carers through:

- Curriculum activities
- Letters, newsletters, web site, Facebook
- Parents / Carers evenings / sessions
- High profile events / campaigns e.g. Safer Internet Day
- Reference to the relevant web sites / publications e.g. [swgfl.org.uk](http://www.swgfl.org.uk) www.saferinternet.org.uk/
<http://www.childnet.com/parents-and-carers>

Education – The Wider Community

The school will provide opportunities for local community groups / members of the community to gain from the school's online safety knowledge and experience. This may be offered through the following:

- Online safety messages targeted towards grandparents and other relatives as well as parents.
- The school website will provide online safety information for the wider community
- Supporting community groups e.g. Early Years Settings, Childminders, youth / sports / voluntary groups to enhance their Online Safety provision.

Education & Training - Staff / Volunteers

It is essential that all staff receive online safety training and understand their responsibilities, as outlined in this policy. Training will be offered as follows:

- A planned programme of formal online safety training will be made available to staff. This will be regularly updated and reinforced. An audit of the online safety training needs of all staff will be carried out regularly.
- All new staff should receive online safety training as part of their induction programme, ensuring that they fully understand the school Online Safety Policy and Acceptable Use Agreements.
- It is expected that some staff will identify online safety as a training need within the performance management process.
- The Online Safety Lead (or other nominated person) will receive regular updates through attendance at external training events (eg from SWGfL / LA / other relevant organisations) and by reviewing guidance documents released by relevant organisations.
- This Online Safety Policy and its updates will be presented to and discussed by staff in staff meetings / INSET days.
- The Online Safety Lead (or other nominated person) will provide advice / guidance / training to individuals as required.

Training - Governors

Governors should take part in online safety training / awareness sessions, with particular importance for those who are members of any subcommittee involved in technology / online safety / health and safety / safeguarding. This may be offered in a number of ways:

- Attendance at training provided by the Local Authority / National Governors Association / or other relevant organisation (e.g. SWGfL).
- Participation in school training / information sessions for staff or parents.

Technical - infrastructure / equipment, filtering and monitoring

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people named in the above sections will be effective in carrying out their online safety responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements
- There will be regular reviews and audits of the safety and security of school technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- All users will have clearly defined access rights to school technical systems and devices.
- All users will be provided with a username and secure password to the Online learning resource (Purple mash) by the Online Safety Lead who will keep an up to date record of users and their usernames. Users are responsible for the security of their username and password and will be required to change their password every year.
- The “master / administrator” passwords for the school ICT systems, used by the Network Manager (or other person) must also be available to the Headteacher or other nominated senior leader and kept in a secure place
- The Head teacher is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations
- Internet access is filtered for all users. Illegal content (child sexual abuse images) is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list. Content lists are regularly updated and internet use is logged and regularly monitored. There is a clear process in place to deal with requests for filtering changes
- Internet filtering / monitoring should ensure that children are safe from terrorist and extremist material when accessing the internet.
- The school has provided enhanced / differentiated user-level filtering between the pupil and staff networks.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- Systems are in place for users to report any actual / potential technical incident / security breach to the relevant person, as agreed).
- Appropriate security measures are in place by the Local Authority to protect the servers, firewalls, routers, wireless systems, work stations, mobile devices etc from accidental or malicious attempts which might threaten the security of the school systems and data. These are tested regularly. The school infrastructure and individual workstations are protected by up to date virus software.

- An agreed policy is in place for the provision of temporary access of “guests” (eg trainee teachers, supply teachers, visitors) onto the school systems.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices. Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Mobile Technologies

Mobile technology devices may be school owned/provided or personally owned and might include: smartphone, tablet, laptop or other technology that usually has the capability of utilising the school’s wireless network. The device then has access to the wider internet which may include the school’s learning platform and other cloud based services such as email and data storage.

All users should understand that the primary purpose of the use of mobile / personal devices in a school context is educational. The mobile technologies policy should be consistent with and inter-related to other relevant school policies including but not limited to the Safeguarding Policy, Behaviour Policy, Bullying Policy, Acceptable Use Policy, and policies around theft or malicious damage. Teaching about the safe and appropriate use of mobile technologies should be an integral part of the school’s Online Safety education programme.

- The school Acceptable Use Agreements for staff, pupils/students and parents / carers will give consideration to the use of mobile technologies
- The school allows:

| | School Devices | | | Personal Devices | | |
|---------------------|------------------------------------|---------------------------------|-------------------|------------------------|-------------|---------------|
| | School owned for single user | School owned for multiple users | Authorised device | Student owned | Staff owned | Visitor owned |
| Allowed in school | Yes | Yes | No | Yes - stored in office | Yes | Yes |
| Full network access | Yes (HT, Office and Pastoral Lead) | No | No | No | No | No |
| Internet only | Yes | Yes | No | No | Yes | No |

Use of digital and video images

The development of digital imaging technologies has created significant benefits to learning, allowing staff and pupils instant use of images that they have recorded themselves or downloaded from the internet. However, staff, parents / carers and pupils need to be aware of the risks associated with publishing digital images on the internet. Such images may provide avenues for cyberbullying to take place. Digital images may remain available on the internet forever and may cause harm or embarrassment to individuals in the short or longer term. It is common for employers to carry out internet searches for information about potential and existing employees. The school will inform and educate users about these risks and will implement policies to reduce the likelihood of the potential for harm:

- When using digital images, staff should inform and educate pupils about the risks associated with the taking, use, sharing, publication and distribution of images. In particular they should recognise the risks attached to publishing their own images on the internet e.g. on social networking sites.
- Written permission from parents or carers will be obtained before photographs of pupils are published on the school website / social media / local press
- In accordance with guidance from the Information Commissioner’s Office, parents / carers are welcome to take videos and digital images of their children at school events for their own personal use (as such use is not covered by the Data Protection Act). To respect everyone’s privacy and in some cases protection, these images should not be published / made publicly available on social networking sites, nor should parents / carers comment on any activities involving other pupils in the digital / video images.
- Staff and volunteers are allowed to take digital / video images to support educational aims, but must follow school policies concerning the sharing, distribution and publication of those images. Those images should only be taken on school equipment, the personal equipment of staff should not be used for such purposes.
- Care should be taken when taking digital / video images that pupils are appropriately dressed and are not participating in activities that might bring the individuals or the school into disrepute.
- Pupils must not take, use, share, publish or distribute images of others without their permission
- Photographs published on the website, or elsewhere that include pupils will be selected carefully and will comply with good practice guidance on the use of such images.
- Students’ / Pupils’ full names will not be used anywhere on a website or blog, particularly in association with photographs.
- Student’s / Pupil’s work can only be published with the permission of the pupil and parents or carers.

Data Protection

Personal data will be recorded, processed, transferred and made available according to the current data protection legislation.

The school must ensure that:

- It has a Data Protection Policy. (see appendix for template policy)
- It has paid the appropriate fee to the Information Commissioner’s Office (ICO).
- It has appointed a Data Protection Officer (DPO). The school may also wish to appoint a Data Manager and systems controllers to support the DPO.
- It will hold the minimum personal data necessary to enable it to perform its function and it will not hold it for longer than necessary for the purposes it was collected for.
- Data held must be accurate and up to date. Inaccuracies are corrected without unnecessary delay.
- The lawful basis for processing personal data (including, where relevant, consent) has been identified and documented and details provided in a Privacy Notice. (see Privacy Notice section in the appendix)
- Where special category data is processed, a lawful basis and a separate condition for processing have been identified.
- Data Protection Impact Assessments (DPIA) are carried out.
- It has clear and understood arrangements for access to and the security, storage and transfer of personal data, including, where necessary, adequate contractual clauses or safeguards where personal data is passed to third parties e.g. cloud service providers.
- Procedures must be in place to deal with the individual rights of the data subject i.e. a Subject Access Requests to see all or a part of their personal data held by the data controller.
- There are clear and understood data retention policies and routines for the deletion and disposal of data.
- There is a policy for reporting, logging, managing and recovering from an information risk incident which recognises the requirement to report relevant data breaches to the ICO within 72 hours of the breach, where feasible.
- Consideration has been given to the protection of personal data when accessed using any remote access solutions.
- All schools must have a Freedom of Information Policy which sets out how it will deal with FOI requests.
- All staff receive data handling awareness / data protection training and are made aware of their responsibilities.

Staff must ensure that they:

- At all times take care to ensure the safe keeping of personal data, minimising the risk of its loss or misuse.
- Use personal data only on secure password protected computers and other devices, ensuring that they are properly “logged-off” at the end of any session in which they are using personal data.
- Transfer data using encryption and secure password protected devices.

When personal data is stored on any portable computer system, memory stick or any other removable media:

- The data must be encrypted and password protected.
- The device must be password protected.
- The device must offer approved virus and malware checking software.
- The data must be securely deleted from the device, in line with school policy (below) once it has been transferred or its use is complete.

Communications

A wide range of rapidly developing communications technologies has the potential to enhance learning. The following table shows how the school currently considers the benefit of using these technologies for education outweighs their risks / disadvantages:

| Communication Technologies | Staff/other adults | Pupils |
|---|--------------------|----------------|
| Mobile phones may be brought to the school | | Kept in office |
| Use of mobile phones in lessons | | |
| Use of mobile phones in social time | | |
| Taking photos on mobile phones / cameras | | |
| Use of other mobile devices e.g. tablets, gaming devices | | |
| Use of personal email addresses in school, or on school network | | |
| Use of school email for personal emails | | |
| Use of messaging apps | | |
| Use of social media | | |

When using communication technologies the school considers the following as good practice:

- The official school email service may be regarded as safe and secure and is monitored. Users should be aware that email communications are monitored. Staff should therefore use only the school email service to communicate with others regarding school matters.
- Users must immediately report, to the nominated person - in accordance with the school policy, the receipt of any communication that makes them feel uncomfortable, is offensive, discriminatory, threatening or bullying in nature and must not respond to any such communication.
- Any digital communication between staff and pupils or parents / carers (email, social media, chat, blogs, VLE etc) must be professional in tone and content. These communications may only take place on official (monitored) school systems. Personal email addresses, text messaging or social media must not be used for these communications.
- Whole class / group email addresses may be used at KS1, while pupils at KS2 and above will be provided with individual school email addresses through the use of Purple Mash.
- Pupils should be taught about online safety issues, such as the risks attached to the sharing of personal details. They should also be taught strategies to deal with inappropriate communications and be reminded of the need to communicate appropriately when using digital technologies.
- Personal information should not be posted on the school website and only official email addresses should be used to identify members of staff.

Social Media - Protecting Professional Identity

All schools have a duty of care to provide a safe learning environment for pupils and staff. Schools and local authorities could be held responsible, indirectly for acts of their employees in the course of their employment. Staff members who harass, engage in online bullying, discriminate on the grounds of sex, race or disability or who defame a third party may render the school or local authority liable to the injured party. Reasonable steps to prevent predictable harm must be in place.

The school provides the following measures to ensure reasonable steps are in place to minimise risk of harm to pupils, staff and the school through:

- Ensuring that personal information is not published
- Training is provided including: acceptable use; social media risks; checking of settings; data protection; reporting issues.
- Clear reporting guidance, including responsibilities, procedures and sanctions
- Risk assessment, including legal risk

School staff should ensure that:

- No reference should be made in social media to pupils, parents / carers or school staff
- They do not engage in online discussion on personal matters relating to members of the school community
- Personal opinions should not be attributed to the school or local authority
- Security settings on personal social media profiles are regularly checked to minimise risk of loss of personal information

When official school social media accounts are established there should be:

- A process for approval by senior leaders
- Clear processes for the administration and monitoring of these accounts - involving at least two members of staff

Personal Use:

- Personal communications are those made via personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
- Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
- Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken.
- The school permits reasonable and appropriate access to private social media sites outside of directed time.

Monitoring of Public Social Media

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school
- The school should effectively respond to social media comments made by others according to a defined policy or process

The school's use of social media for professional purposes will be checked regularly by the Headteacher and Online Safety Lead to ensure compliance with the school policies.

Dealing with unsuitable / inappropriate activities

Some internet activity e.g. accessing child abuse images or distributing racist material is illegal and would obviously be banned from school and all other technical systems. Other activities e.g. cyber-bullying would be banned and could lead to criminal prosecution. There are however a range of activities which may, generally, be legal but would be inappropriate in a school context, either because of the age of the users or the nature of those activities.

The school believes that the activities referred to in the following section would be inappropriate in a school context and that users, as defined below, should not engage in these activities in / or outside the school when using school equipment or systems. The school policy restricts usage as follows:

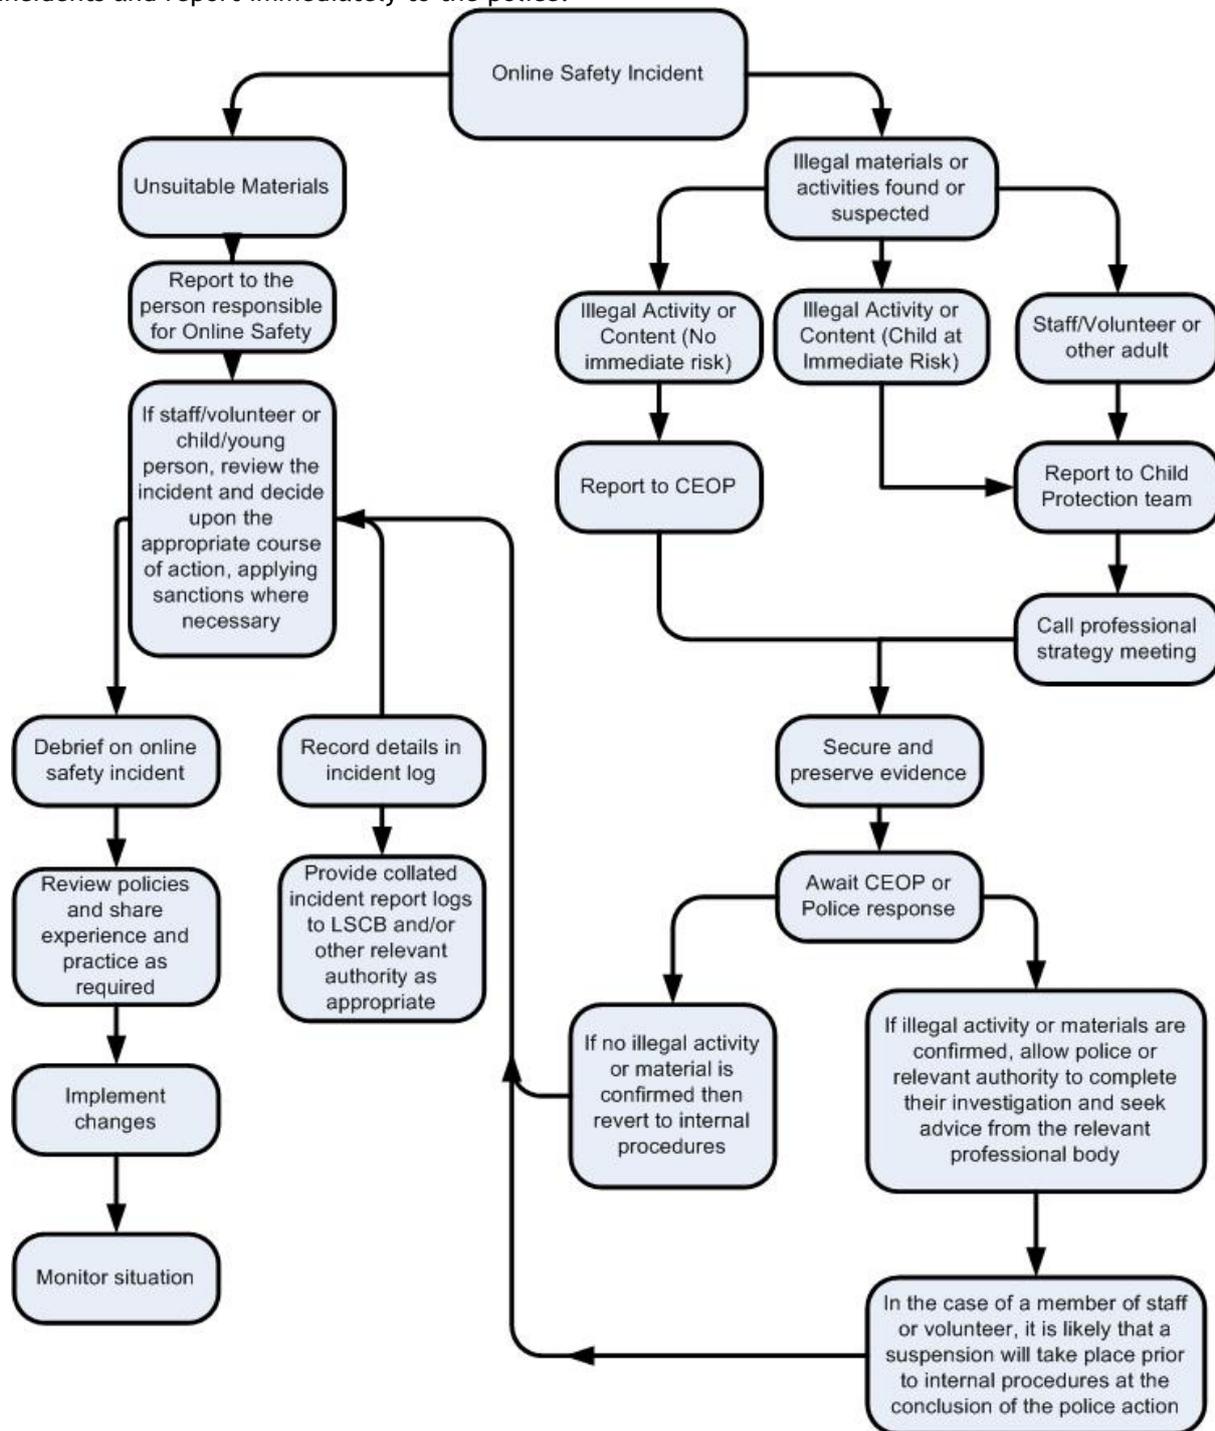

| User Actions | | Acceptable | Acceptable at certain times | Acceptable for nominated users | Unacceptable | Unacceptable and illegal |
|--|--|------------|-----------------------------|--------------------------------|--------------|--------------------------|
| Users shall not visit internet sites, make, post, download, upload, data transfer, communicate or pass on, material, remarks, proposals or comments that contain or relate to: | Child sexual abuse images -The making, production or distribution of indecent images of children. Contrary to The Protection of Children Act 1978 | | | | | X |
| | Grooming, incitement, arrangement or facilitation of sexual acts against children Contrary to the Sexual Offences Act 2003. | | | | | X |
| | Possession of an extreme pornographic image (grossly offensive, disgusting or otherwise of an obscene character) Contrary to the Criminal Justice and Immigration Act 2008 | | | | | X |
| | Criminally racist material in UK - to stir up religious hatred (or hatred on the grounds of sexual orientation) - contrary to the Public Order Act 1986 | | | | | X |
| | Pornography | | | | X | |
| | Promotion of any kind of discrimination | | | | X | |
| | threatening behaviour, including promotion of physical violence or mental harm | | | | X | |
| | Promotion of extremism or terrorism | | | | X | |
| | Any other information which may be offensive to colleagues or breaches the integrity of the ethos of the school or brings the school into disrepute | | | | X | |
| Using school systems to run a private business | | | | X | | |
| Using systems, applications, websites or other mechanisms that bypass the filtering or other safeguards employed by the school | | | | X | | |
| Infringing copyright | | | | X | | |
| Revealing or publicising confidential or proprietary information (eg financial / personal information, databases, computer / network access codes and passwords) | | | | X | | |
| Creating or propagating computer viruses or other harmful files | | | | X | | |
| Unfair usage (downloading / uploading large files that hinders others in their use of the internet) | | | | X | | |
| On-line gaming (educational) | | X | | | | |
| On-line gaming (non-educational) | | | | X | | |
| On-line gambling | | | | X | | |
| On-line shopping / commerce | | X | | | | |
| File sharing | | | | X | | |
| Use of social media | | X | | | | |
| Use of messaging apps | | X | | | | |
| Use of video broadcasting e.g. Youtube | | X | | | | |

Responding to incidents of misuse

This guidance is intended for use when staff need to manage incidents that involve the use of online services. It encourages a safe and secure approach to the management of the incident. Incidents might involve illegal or inappropriate activities (see “User Actions” above).

Illegal Incidents

If there is any suspicion that the web site(s) concerned may contain child abuse images, or if there is any other suspected illegal activity, refer to the right hand side of the Flowchart (below and appendix) for responding to online safety incidents and report immediately to the police.

Other Incidents

It is hoped that all members of the school community will be responsible users of digital technologies, who understand and follow school policy. However, there may be times when infringements of the policy could take place, through careless or irresponsible or, very rarely, through deliberate misuse.

In the event of suspicion, all steps in this procedure should be followed:

- Have more than one senior member of staff involved in this process. This is vital to protect individuals if accusations are subsequently reported.
- Conduct the procedure using a designated computer that will not be used by young people and if necessary can be taken off site by the police should the need arise. Use the same computer for the duration of the procedure.
- It is important to ensure that the relevant staff should have appropriate internet access to conduct the procedure, but also that the sites and content visited are closely monitored and recorded (to provide further protection).
- Record the URL of any site containing the alleged misuse and describe the nature of the content causing concern. It may also be necessary to record and store screenshots of the content on the machine being used for investigation. These may be printed, signed and attached to the form (except in the case of images of child sexual abuse - see below)
- Once this has been completed and fully investigated the group will need to judge whether this concern has substance or not. If it does then appropriate action will be required and could include the following:
 - Internal response or discipline procedures
 - Involvement by Local Authority or national / local organisation (as relevant).
 - Police involvement and/or action
- **If content being reviewed includes images of child abuse then the monitoring should be halted and referred to the Police immediately. Other instances to report to the police would include:**
 - incidents of 'grooming' behaviour
 - the sending of obscene materials to a child
 - adult material which potentially breaches the Obscene Publications Act
 - criminally racist material
 - promotion of terrorism or extremism
 - other criminal conduct, activity or materials
- **Isolate the computer in question as best you can. Any change to its state may hinder a later police investigation.**

It is important that all of the above steps are taken as they will provide an evidence trail for the *school* and possibly the police and demonstrate that visits to these sites were carried out for safeguarding purposes. The completed form should be retained by the group for evidence and reference purposes.

School Actions & Sanctions

It is more likely that the school will need to deal with incidents that involve inappropriate rather than illegal misuse. It is important that any incidents are dealt with as soon as possible in a proportionate manner, and that members of the school community are aware that incidents have been dealt with. It is intended that incidents of misuse will be dealt with through normal behaviour / disciplinary procedures.

Acknowledgements

SWGfL would like to acknowledge a range of individuals and organisations whose policies, documents, advice and guidance have contributed to the development of this School Online Safety Policy Template and of the 360 degree safe Online Safety Self Review Tool:

- Members of the SWGfL Online Safety Group

Pupil Acceptable Use Agreement Template - for older pupils

School Policy

Digital technologies have become integral to the lives of children and young people, both within schools and outside school. These technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. Young people should have an entitlement to safe internet access at all times.

This Acceptable Use Agreement is intended to ensure:

- that young people will be responsible users and stay safe while using the internet and other digital technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and will have good access to digital technologies to enhance their learning and will, in return, expect the *pupils* to agree to be responsible users.

Acceptable Use Policy - KS2

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users.

For my own personal safety:

- I understand that the school will monitor my use of the systems, devices and digital communications.
- I will keep my username and password safe and secure - I will not share it, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will be aware of "stranger danger", when I am communicating on-line.
- I will not disclose or share personal information about myself or others when on-line (this could include names, addresses, email addresses, telephone numbers, age, gender, educational details, financial details etc)
- I will not arrange to meet people off-line that I have communicated with on-line
- I will immediately report any unpleasant or inappropriate material or messages or anything that makes me feel uncomfortable when I see it on-line to my teachers, parents or another trusted adult.

I understand that everyone has equal rights to use technology as a resource and:

- I understand that the school systems and devices are primarily intended for educational use and that I will not use them for personal or recreational use unless I have permission.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not use the school systems or devices for on-line gaming, on-line gambling, internet shopping, file sharing, or video broadcasting (eg YouTube), unless I have permission of a member of staff to do so.

I will act as I expect others to act toward me:

- I will respect others' work and property and will not access, copy, remove or otherwise alter any other user's files, without the owner's knowledge and permission.
- I will be polite and responsible when I communicate with others, I will not use strong, aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will not take or distribute images of anyone without their permission.

I recognise that the school has a responsibility to maintain the security and integrity of the technology it offers me and to ensure the smooth running of the school:

- I will make sure that if I bring any personal devices into school, my parents have completed the consent form and I hand my device into the school office at the beginning of the day and collect it at the end.
- I understand the risks and will not try to upload, download or access any materials which are illegal or inappropriate or may cause harm or distress to others, nor will I try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.
- I will not open any hyperlinks in emails or any attachments to emails, unless I know and trust the person / organisation who sent the email, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will not install or attempt to install or store programmes of any type on any school device, nor will I try to alter computer settings.
- I will only use social media sites with permission and at the times that are allowed

When using the internet for research or recreation, I recognise that:

- I should ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not try to download copies (including music and videos)
- When I am using the internet to find information, I should take care to check that the information that I access is accurate, as I understand that the work of others may not be truthful and may be a deliberate attempt to mislead me.

I understand that I am responsible for my actions, both in and out of school:

- I understand that the school also has the right to take action against me if I am involved in incidents of inappropriate behaviour, that are covered in this agreement, when I am out of school and where they involve my membership of the school community (examples would be cyber-bullying, use of images or personal information).
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I will be subject to disciplinary action. This may include loss of access to the school network / internet, detentions, suspensions, contact with parents and in the event of illegal activities involvement of the police.

Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems and devices.

Acceptable Use Policy Agreement - KS2

Please complete the sections below to show that you have read, understood and agree to the rules included in the Acceptable Use Agreement. If you do not sign and return this agreement, access will not be granted to school systems.

I have read and understand the above and agree to follow these guidelines when:

- I use the school systems and devices (both in and out of school)
- I use my own equipment out of the school in a way that is related to me being a member of this school eg communicating with other members of the school, accessing school email through Purple Mash, general use of Purple Mash, websites etc.

Acceptable Use Policy - EYFS/KS1

This is how we stay safe when we use computers:

- I will ask a teacher or suitable adult if I want to use the computers / tablets
- I will only use activities that a teacher or suitable adult has told or allowed me to use
- I will take care of the computer and other equipment
- I will ask for help from a teacher or suitable adult if I am not sure what to do or if I think I have done something wrong
- I will tell a teacher or suitable adult if I see something that upsets me on the screen
- I know that if I break the rules I might not be allowed to use a computer / tablet

Staff (and Volunteer) Acceptable Use Policy

New technologies have become integral to the lives of children and young people in today's society, both within schools and in their lives outside school. The internet and other digital information and communications technologies are powerful tools, which open up new opportunities for everyone. These technologies can stimulate discussion, promote creativity and stimulate awareness of context to promote effective learning. They also bring opportunities for staff to be more creative and productive in their work. All users should have an entitlement to safe access to the internet and digital technologies at all times.

This Acceptable Use Policy is intended to ensure:

- that staff and volunteers will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.
- that school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.
- that staff are protected from potential risk in their use of technology in their everyday work.

The school will try to ensure that staff and volunteers will have good access to digital technology to enhance their work, to enhance learning opportunities for *pupils* learning and will, in return, expect staff and volunteers to agree to be responsible users.

Acceptable Use Policy Agreement

I understand that I must use school systems in a responsible way, to ensure that there is no risk to my safety or to the safety and security of the systems and other users. I recognise the value of the use of digital technology for enhancing learning and will ensure that pupils receive opportunities to gain from the use of digital technology. I will, where possible, educate the young people in my care in the safe use of digital technology and embed online safety in my work with young people.

For my professional and personal safety:

- I understand that the *school* will monitor my use of the school digital technology and communications systems.
- I understand that the rules set out in this agreement also apply to use of these technologies (e.g. laptops, email, VLE etc.) out of school, and to the transfer of personal data (digital or paper based) out of school on password protected devices.
- I understand that the school digital technology systems are primarily intended for educational use and that I will only use the systems for personal or recreational use within the policies and rules set down by the school.
- I will not disclose my username or password to anyone else, nor will I try to use any other person's username and password. I understand that I should not write down or store a password where it is possible that someone may steal it.
- I will immediately report any illegal, inappropriate or harmful material or incident, I become aware of, to the appropriate person.

I will be professional in my communications and actions when using *school* ICT systems:

- I will not access, copy, remove or otherwise alter any other user's files, without their express permission.
- I will communicate with others in a professional manner, I will not use aggressive or inappropriate language and I appreciate that others may have different opinions.
- I will ensure that when I take and / or publish images of others I will do so with their permission and in accordance with the school's policy on the use of digital / video images. I will not use my personal equipment to record these images, unless I have expressed permission from the Headteacher to do so. Where these images are published (eg on the school website / Facebook page) it will not be possible to identify by name, or other personal information, those who are featured.
- I will only use social networking sites in school in accordance with the school's policies.
- I will only communicate with pupils and parents / carers using official school systems. Any such communication will be professional in tone and manner.
- I will not engage in any on-line activity that may compromise my professional responsibilities.

The school and the local authority have the responsibility to provide safe and secure access to technologies and ensure the smooth running of the *school*:

- When I use my mobile devices (laptops / tablets / mobile phones / USB devices etc) in school, I will follow the rules set out in this agreement, in the same way as if I was using *school* equipment. I will also follow any additional rules set by the *school* about such use. I will ensure that any such devices are protected by up to date anti-virus software and are free from viruses.

- I will not open any hyperlinks in emails or any attachments to emails, unless the source is known and trusted, or if I have any concerns about the validity of the email (due to the risk of the attachment containing viruses or other harmful programmes)
- I will ensure that my data is regularly backed up, in accordance with relevant school policies.
- I will not try to upload, download or access any materials which are illegal (child sexual abuse images, criminally racist material, adult pornography covered by the Obscene Publications Act) or inappropriate or may cause harm or distress to others. I will not try to use any programmes or software that might allow me to bypass the filtering / security systems in place to prevent access to such materials.
- I will not try (unless I have permission) to make large downloads or uploads that might take up internet capacity and prevent other users from being able to carry out their work.
- I will not install or attempt to install programmes of any type on a machine, or store programmes on a computer, nor will I try to alter computer settings, unless approval given from the Headteacher.
- I will not disable or cause any damage to school equipment, or the equipment belonging to others.
- I will only transport, hold, disclose or share personal information about myself or others, as outlined in the School / LA Personal Data Policy (or other relevant policy). Where digital personal data is transferred outside the secure local network, it must be encrypted.
- I understand that data protection policy requires that any staff or pupil data to which I have access, will be kept private and confidential, except when it is deemed necessary that I am required by law or by school policy to disclose such information to an appropriate authority.
- I will immediately report any damage or faults involving equipment or software, however this may have happened.

When using the internet in my professional capacity or for school sanctioned personal use:

- I will ensure that I have permission to use the original work of others in my own work
- Where work is protected by copyright, I will not download or distribute copies (including music and videos).

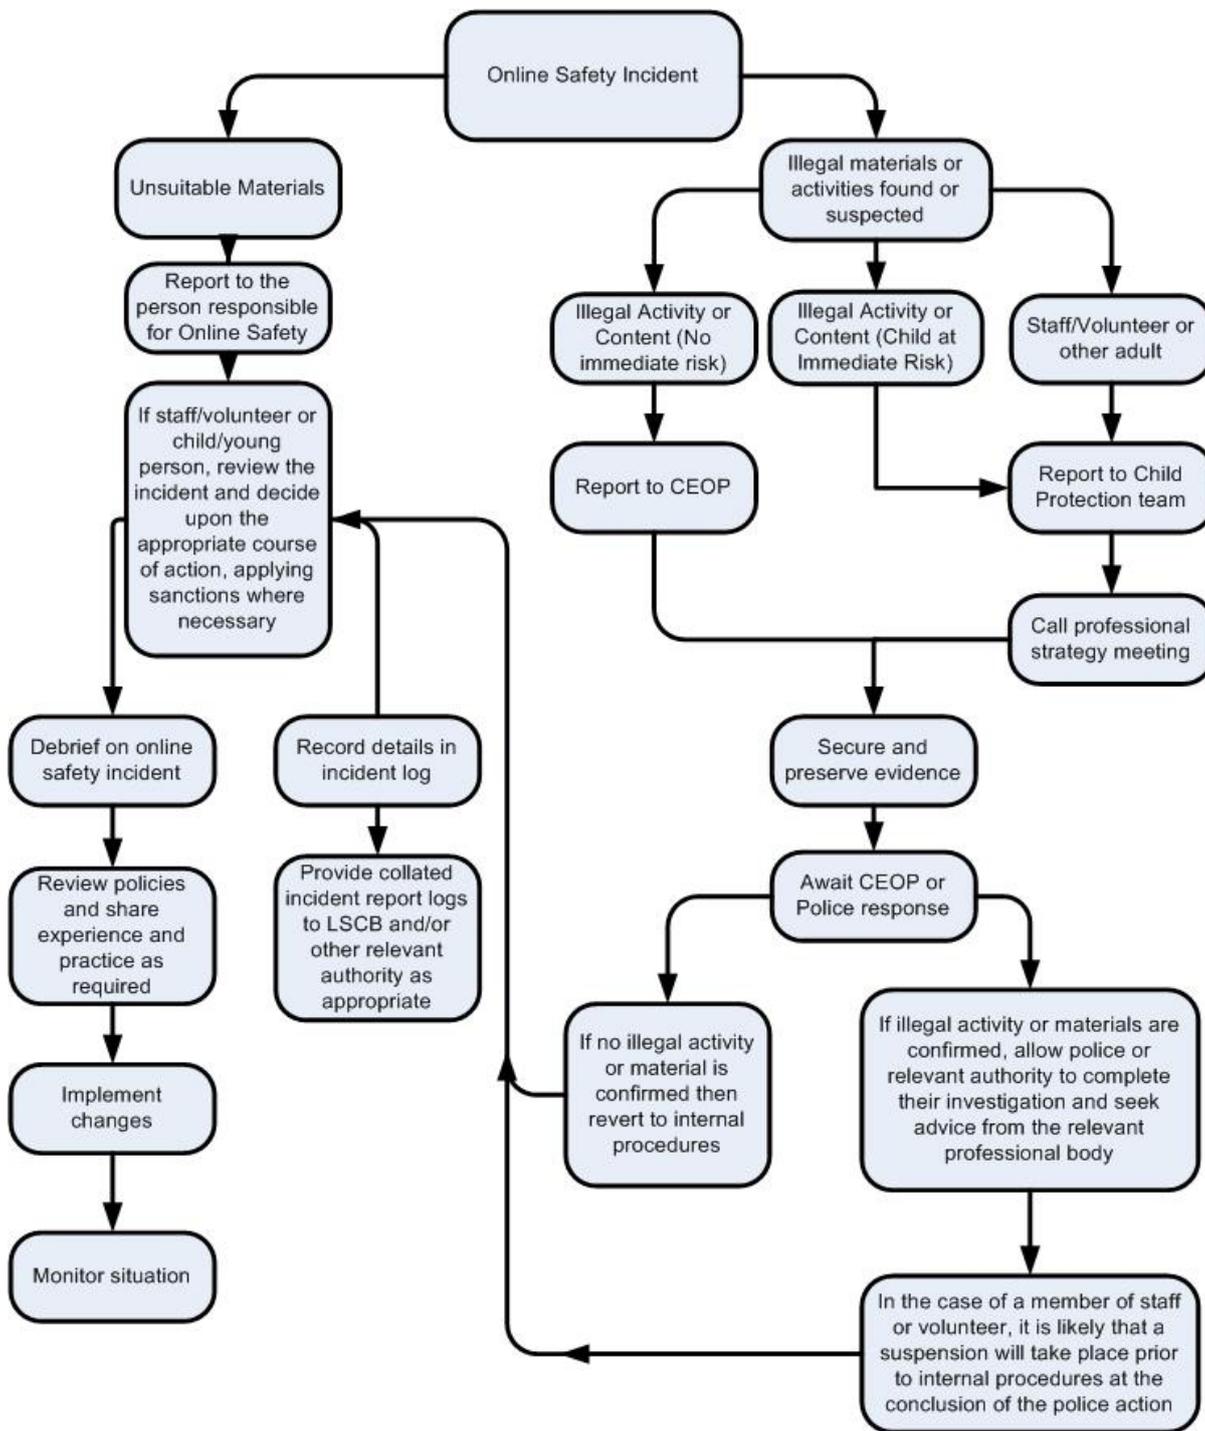

I understand that I am responsible for my actions in and out of the *school*:

- I understand that this Acceptable Use Policy applies not only to my work and use of school digital technology equipment in school, but also applies to my use of school systems and equipment off the premises and my use of personal equipment on the premises or in situations related to my employment by the school
- I understand that if I fail to comply with this Acceptable Use Policy Agreement, I could be subject to disciplinary action. This could include a warning, a suspension, referral to Governors and / or the Local Authority and in the event of illegal activities the involvement of the police.

I have read and understand the above and agree to use the school digital technology systems (both in and out of school) and my own devices (in school and when carrying out communications related to the school) within these guidelines.

School Technical Security Policy Template (including filtering and passwords)

Introduction

Effective technical security depends not only on technical measures, but also on appropriate policies and procedures and on good user education and training. The school will be responsible for ensuring that the *school infrastructure / network* is as safe and secure as is reasonably possible and that:

- users can only access data to which they have right of access
- no user should be able to access another's files (other than that allowed for monitoring purposes within the school's policies).
- access to personal data is securely controlled in line with the school's personal data policy
- logs are maintained of access by users and of their actions while users of the system
- there is effective guidance and training for users
- there are regular reviews and audits of the safety and security of school computer systems
- there is oversight from senior leaders and these have impact on policy and practice.

Responsibilities

The management of technical security will be the responsibility of the Head teacher.

Technical Security

Policy statements

The school will be responsible for ensuring that the school infrastructure / network is as safe and secure as is reasonably possible and that policies and procedures approved within this policy are implemented. It will also need to ensure that the relevant people receive guidance and training and will be effective in carrying out their responsibilities:

- School technical systems will be managed in ways that ensure that the school meets recommended technical requirements from LCC.
- There will be regular reviews and audits of the safety and security of school academy technical systems
- Servers, wireless systems and cabling must be securely located and physical access restricted
- Appropriate security measures are in place to protect the servers, firewalls, switches, routers, wireless systems, work stations, mobile devices etc. from accidental or malicious attempts which might threaten the security of the school systems and data.
- Responsibilities for the management of technical security are clearly assigned to appropriate and well trained staff.
- All users will have clearly defined access rights to school technical systems.
- Users will be made responsible for the security of their username and password must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- The Head teacher is responsible for ensuring that software licence logs are accurate and up to date and that regular checks are made to reconcile the number of licences purchased against the number of software installations.
- Mobile device security and management procedures are in place.
- School technical staff regularly monitor and record the activity of users on the school technical systems and users are made aware of this in the Acceptable Use Agreement.
- An appropriate system is in place for users to report any actual / potential technical incident to the Online Safety Coordinator / Network Manager / Technician (or other relevant person, as agreed).
- An agreed policy is in place for the provision of temporary access of "guests" (e.g. trainee teachers, supply teachers, visitors) onto the school system.
- An agreed policy is in place regarding the downloading of executable files and the installation of programmes on school devices by users
- An agreed policy is in place regarding the extent of personal use that staff are allowed on school devices that may be used out of school.
- An agreed policy is in place regarding the use of removable media (eg memory sticks / CDs / DVDs) by users on school devices.

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

- The school infrastructure and individual workstations are protected by up to date software to protect against malicious threats from viruses, worms, trojans etc
- Personal data cannot be sent over the internet or taken off the school site unless safely encrypted or otherwise secured.

Password Security

A safe and secure username / password system is essential if the above is to be established and will apply to all school technical systems, including networks, devices, email and Virtual Learning Environment (VLE).

Policy Statements

- All users will have clearly defined access rights to school technical systems and devices. Details of the access rights available to groups of users will be recorded by the Network Manager (or other person) and will be reviewed, at least annually, by the Online Safety Lead.
- All school networks and systems will be protected by secure passwords that are regularly changed
- The “master / administrator” passwords for the school systems, used by the technical staff must also be available to the Headteacher and kept in a secure place eg school safe.
- All users (adults and young people) will have responsibility for the security of their username and password must not allow other users to access the systems using their log on details and must immediately report any suspicion or evidence that there has been a breach of security.
- Passwords for new users, and replacement passwords for existing users will be allocated by the Online Safety Lead.
- Users will change their passwords at regular intervals - as described in the staff and pupil sections below.
- Where passwords are set / changed manually requests for password changes should be authenticated by (the responsible person) to ensure that the new password can only be passed to the genuine user by requests being authorised by the Head teacher.

Staff Passwords

- All staff users will be provided with a username and password by the Online Safety Lead or Head teacher who will keep an up to date record of users and their usernames.
- For e-mail accounts, the password should be a minimum of 8 characters long and must include three of - uppercase character, lowercase character, number, special characters.
- the account should be “locked out” following three successive incorrect log-on attempts
- temporary passwords e.g. used with new user accounts or when users have forgotten their passwords, shall be enforced to change immediately upon the next account log-on
- passwords should be different for different accounts, to ensure that other systems are not put at risk if one is compromised and should be different for systems used inside and outside of school
- should be changed at least every 90 days
- should not re-used for 6 months and be significantly different from previous passwords created by the same user. The last four passwords cannot be re-used.

Pupil Passwords

- All users at KS2 and above will be provided with a username and password by the Online Safety Lead or Head teacher who will keep an up to date record of users and their usernames.
- Users will be required to change their password every year.
- Pupils will be taught the importance of password security
- School password routines should model good password practice for users
- The complexity (i.e. minimum standards) will be set with regards to the cognitive ability of the children.

Training / Awareness

Members of staff will be made aware of the school's password policy:

- at induction
- through the school's online safety policy and password security policy
- through the Acceptable Use Agreement

Pupils / students will be made aware of the school's password policy:

- in lessons
- through the Acceptable Use Agreement

Audit / Monitoring / Reporting / Review

The Head teacher will ensure that full records are kept of:

- User Ids
- User log-ins
- Security incidents related to this policy

Filtering

Introduction

The filtering of internet content provides an important means of preventing users from accessing material that is illegal or is inappropriate in an educational context. The filtering system cannot, however, provide a 100% guarantee that it will do so, because the content on the web changes dynamically and new technologies are constantly being developed. It is important, therefore, to understand that filtering is only one element in a larger strategy for online safety and acceptable use. It is important that the school has a filtering policy to manage the associated risks and to provide preventative measures which are relevant to the situation in this school.

Responsibilities

The responsibility for the management of the school's filtering policy will be held by the Head teacher. They will manage the school filtering, in line with this policy and will keep records / logs of changes and of breaches of the filtering systems.

To ensure that there is a system of checks and balances and to protect those responsible, changes to the school filtering service must:

- be logged in change control logs
- be reported to a second responsible person (Online Safety Lead)

All users have a responsibility to report immediately to the Online Safety Lead or Head teacher any infringements of the school's filtering policy of which they become aware or any sites that are accessed, which they believe should have been filtered.

Users must not attempt to use any programmes or software that might allow them to bypass the filtering / security systems in place to prevent access to such materials.

Policy Statements

Internet access is filtered for all users. Differentiated internet access is available for staff and customised filtering changes are managed by the school. Illegal content is filtered by the broadband or filtering provider by actively employing the Internet Watch Foundation CAIC list and other illegal content lists. Filter content lists are regularly updated and internet use is logged and frequently monitored. The monitoring process alerts the school to breaches of the filtering policy, which are then acted upon. There is a clear route for reporting and managing changes to the filtering system. Where personal mobile devices are allowed internet access through the school network, filtering will be applied that is consistent with school practice.

- The school maintains and supports the managed filtering service provided by Lancashire County Council.
- The school has provided enhanced / differentiated user-level filtering through the use of the Netsweeper filtering programme (allowing different filtering levels for different groups of staff).
- In the event of the technical staff needing to switch off the filtering for any reason, or for any user, this must be logged and carried out by a process that is agreed by the Headteacher.
- Mobile devices that access the school internet connection (whether school or personal devices) will be subject to the same filtering standards as other devices on the school systems
- Any filtering issues should be reported immediately to the filtering provider.
- Requests from staff for sites to be removed from the filtered list will be considered by the Head teacher. If the request is agreed, this action will be recorded and logs of such actions shall be reviewed regularly by the Online Safety Lead.

Education / Training / Awareness

Pupils will be made aware of the importance of filtering systems through the online safety education programme as part of the Computing curriculum. They will also be warned of the consequences of attempting to subvert the filtering system.

Staff users will be made aware of the filtering systems through:

- the Acceptable Use Agreement

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

- induction training
- staff meetings, briefings, Inset.

Parents will be informed of the school's filtering policy through the Acceptable Use Agreement and through online safety awareness sessions / newsletter etc.

Changes to the Filtering System

Staff who wish to request access to a website which is currently blocked by the school's filtering service need to request this through the Head teacher. The member of staff making this request needs to detail the reason this request is required and the educational reasons for this change. It should also be determined whether this change should be made on a temporary or a permanent basis. Where appropriate, the Head teacher will decide whether to discuss this request further with the Online Safety Lead or members of SLT.

Users who gain access to, or have knowledge of others being able to access, sites which they feel should be filtered (or unfiltered) should report this in the first instance to the Head teacher will decide whether to make school level changes.

Monitoring

No filtering system can guarantee 100% protection against access to unsuitable sites. The school will therefore monitor the activities of users on the school network and on school equipment as indicated in the School Online Safety Policy and the Acceptable Use Agreement. Monitoring will take place as follows:

- monthly viewing of the Netsweeper system.
- Monitoring of online safety logs.

Audit / Reporting

Logs of filtering change controls and of filtering incidents will be made available to:

- Online Safety Lead
- SLT
- Safeguarding Governor / Governors committee
- External Filtering provider / Local Authority / Police on request

The filtering policy will be reviewed in the response to the evidence provided by the audit logs of the suitability of the current provision.

Further Guidance

Schools in England (and Wales) are required *"to ensure children are safe from terrorist and extremist material when accessing the internet in school, including by establishing appropriate levels of filtering"* ([Revised Prevent Duty Guidance: for England and Wales, 2015](#)).

Furthermore, the Department for Education published the updated 'Keeping Children Safe in Education' in September 2019. It states in this document: *"As schools and colleges increasingly work online, it is essential that children are safeguarded from potentially harmful and inappropriate online material. As such, governing bodies and proprietors should ensure appropriate filters and appropriate monitoring systems are in place."*

In response UKSIC produced guidance on - information on ["Appropriate Filtering"](#)

NEN Technical guidance: <http://www.nen.gov.uk/e-security-managing-and-maintaining-e-securitycyber-security-in-schools/>

Somerset Guidance for schools - this checklist is particularly useful where a school uses external providers for its technical support / security: <https://360safe.org.uk/Files/Documents/Somerset-Questions-for-Technical-Support-v4.aspx>

School Policy: Electronic Devices - Searching & Deletion

Introduction

The changing face of information technologies and ever increasing pupil / student use of these technologies has meant that the Education Acts have had to change in an attempt to keep pace. Within Part 2 of the Education Act 2011 (Discipline) there have been changes to the powers afforded to schools by statute to search pupils in order to maintain discipline and ensure safety. Schools are required to ensure they have updated policies which take these changes into account. No such policy can on its own guarantee that the school will not face legal challenge, but having a robust policy which takes account of the Act and applying it in practice will however help to provide the school with justification for what it does.

The particular changes we deal with here are the added power to search for items 'banned under the school rules' and the power to 'delete data' stored on seized electronic devices.

Items banned under the school rules are determined and publicised by the Headteacher (section 89 Education and Inspections Act 1996).

An item banned by the school rules may only be searched for under these new powers if it has been identified in the school rules as an item that can be searched for. It is therefore important that there is a school policy which sets out clearly and unambiguously the items which:

- are banned under the school rules; and
- are banned AND can be searched for by authorised school staff

The act allows authorised persons to examine data on electronic devices if they think there is a good reason to do so. In determining a 'good reason' to examine or erase the data or files the authorised staff member must reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or could break the school rules.

Following an examination, if the person has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so.

The Head Teacher must publicise the school behaviour policy, in writing, to staff, parents / carers and pupils at least once a year. (There should therefore be clear links between the search etc. policy and the behaviour policy).

Some of the relevant legislation:

- Education Act 1996
- Education and Inspections Act 2006
- Education Act 2011 Part 2 (Discipline)
- The School Behaviour (Determination and Publicising of Measures in Academies) Regulations 2012
- Health and Safety at Work etc. Act 1974
- Obscene Publications Act 1959
- Children Act 1989
- Human Rights Act 1998
- Computer Misuse Act 1990

Responsibilities

The Headteacher is responsible for ensuring that the school policies reflect the requirements contained within the relevant legislation. The formulation of these policies may be delegated to other individuals or groups. The policies will normally be taken to Governors for approval. The Headteacher will need to authorise those staff who are allowed to carry out searches.

This policy has been written by and will be reviewed by: Mr Patrick Kennedy, Acting Head teacher

The Headteacher has authorised the following members of staff to carry out searches for and of electronic devices and the deletion of data / files on those devices:

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

- Mrs Harriet Dewhurst (Acting Assistant Head teacher)
- Miss Rachael Gavin (Acting Assistant Head teacher)

Mrs Pauline Hodgson (Pastoral Lead)

Mr Andrew Holmes (Online Safety Lead)

The Headteacher may authorise other staff members in writing in advance of any search they may undertake, subject to appropriate training.

Training / Awareness

Members of staff should be made aware of the school's policy on "Electronic devices - searching and deletion":

- at induction
- at regular updating sessions on the school's online safety policy

Members of staff authorised by the Headteacher to carry out searches for and of electronic devices and to access and delete data / files from those devices should receive training that is specific and relevant to this role.

Specific training is required for those staff who may need to judge whether material that is accessed is inappropriate or illegal.

Policy Statements

Search:

The school Behaviour Policy refers to the policy regarding searches with and without consent for the wide range of items covered within the Education Act 2011 and lists those items. This policy refers only to the searching for and of electronic devices and the deletion of data / files on those devices.

Pupils are not allowed to bring mobile phones or other personal electronic devices to school or use them in the school. Where devices are brought into school, these are securely stored in the school office.

Authorised staff (defined in the responsibilities section above) have the right to search for such electronic devices where they reasonably suspect that the data or file on the device in question has been, or could be, used to cause harm, to disrupt teaching or break the school rules.

- Searching with consent - Authorised staff may search with the pupil's consent for any item
- Searching without consent - Authorised staff may only search without the pupil's consent for anything which is either 'prohibited' (as defined in Section 550AA of the Education Act 1996) or appears in the school rules as an item which is banned and may be searched for

In carrying out the search:

The authorised member of staff must have reasonable grounds for suspecting that a pupil is in possession of a prohibited item i.e. an item banned by the school rules and which can be searched for.

The authorised member of staff should take reasonable steps to check the ownership of the mobile phone / personal electronic device before carrying out a search.

The authorised member of staff should take care that, where possible, searches should not take place in public places e.g. an occupied classroom, which might be considered as exploiting the pupil being searched.

The authorised member of staff carrying out the search must be the same gender as the pupil being searched; and there must be a witness (also a staff member) and, if at all possible, they too should be the same gender as the student/ pupil being searched.

There is a limited exception to this rule: Authorised staff can carry out a search of a pupil of the opposite gender including without a witness present, but only where you reasonably believe that there is a risk that serious harm will be caused to a person if you do not conduct the search immediately and where it is not reasonably practicable to summon another member of staff.

Extent of the search:

The person conducting the search may not require the student to remove any clothing other than outer clothing.

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

Outer clothing means clothing that is not worn next to the skin or immediately over a garment that is being worn as underwear (outer clothing includes hats; shoes; boots; coat; blazer; jacket; gloves and scarves). 'Possessions' means any goods over which the pupil has or appears to have control - this includes desks, lockers and bags.

A student's possessions can only be searched in the presence of the pupil and another member of staff, except where there is a risk that serious harm will be caused to a person if the search is not conducted immediately and where it is not reasonably practicable to summon another member of staff.

The power to search without consent enables a personal search, involving removal of outer clothing and searching of pockets; but not an intimate search going further than that, which only a person with more extensive powers (e.g. a police officer) can do.

Use of Force - force cannot be used to search without consent for items banned under the school rules regardless of whether the rules say an item can be searched for.

Electronic devices

An authorised member of staff finding an electronic device may access and examine any data or files on the device if they think there is a good reason to do so.

The examination of the data / files on the device should go only as far as is reasonably necessary to establish the facts of the incident. Any further intrusive examination of personal data may leave the school open to legal challenge.

If inappropriate material is found on the device it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police. Examples of illegal activity would include:

- child sexual abuse images (including images of one child held by another child)
- adult material which potentially breaches the Obscene Publications Act
- criminally racist material
- other criminal conduct, activity or materials

Deletion of Data

Following an examination of an electronic device, if the authorised member of staff has decided to return the device to the owner, or to retain or dispose of it, they may erase any data or files, if they think there is a good reason to do so.

If inappropriate material is found on the device, it is up to the authorised member of staff to decide whether they should delete that material, retain it as evidence (of a possible criminal offence or a breach of school discipline) or whether the material is of such seriousness that it requires the involvement of the police.

A record should be kept of the reasons for the deletion of data / files.

Care of Confiscated Devices

School staff are reminded of the need to ensure the safe keeping of confiscated devices, to avoid the risk of compensation claims for damage / loss of such devices.

Audit / Monitoring / Reporting / Review

The Head teacher will ensure that full records are kept of incidents involving the searching for and of mobile phones and electronic devices and the deletion of data / files.

These records will be reviewed by Online Safety Lead, Safeguarding Governor and SLT) at regular termly intervals.

This policy will be reviewed by the Head teacher and governors annually and in response to changes in guidance and evidence gained from the records.

Social Media Policy Template

Social media (e.g. Facebook, Twitter, LinkedIn) is a broad term for any kind of online platform which enables people to directly interact with each other. However, some games, for example Minecraft or World of Warcraft, and video sharing platforms such as YouTube have social media elements to them.

The school recognises the numerous benefits and opportunities which a social media presence offers. Staff, parents/carers and pupils are actively encouraged to find creative ways to use social media. However, there are some risks associated with social media use, especially around the issues of safeguarding, bullying and personal reputation. This policy aims to encourage the safe use of social media by the school, its staff, parents, carers and children.

Scope

This policy is subject to the school's Codes of Conduct and Acceptable Use Agreements.

This policy:

- Applies to all staff and to all online communications which directly or indirectly, represent the school.
- Applies to such online communications posted at any time and from anywhere.
- Encourages the safe and responsible use of social media through training and education
- Defines the monitoring of public social media activity pertaining to the school.

The school respects privacy and understands that staff and pupils/students may use social media forums in their private lives. However, personal communications likely to have a negative impact on professional standards and/or the school's reputation are within the scope of this policy.

Professional communications are those made through official channels, posted on a school account or using the school name. All professional communications are within the scope of this policy.

Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.

Personal communications which do not refer to or impact upon the school are outside the scope of this policy. Digital communications with pupils are also considered. Staff may use social media to communicate with learners via a school social media account for teaching and learning purposes but must consider whether this is appropriate and consider the potential implications.

Organisational control

Roles & Responsibilities

- **SLT**
 - Facilitating training and guidance on Social Media use.
 - Developing and implementing the Social Media policy
 - Taking a lead role in investigating any reported incidents.
 - Making an initial assessment when an incident is reported and involving appropriate staff and external agencies as required.
 - Receive completed applications for Social Media accounts
 - Approve account creation
- **Administrator / Moderator**
 - Create the account following SLT approval
 - Store account details, including passwords securely
 - Be involved in monitoring and contributing to the account
 - Control the process for managing an account after the lead staff member has left the organisation (closing or transferring)
- **Staff**
 - Know the contents of and ensure that any use of social media is carried out in line with this and other relevant policies
 - Attending appropriate training

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

- Regularly monitoring, updating and managing content he/she has posted via school accounts
- Adding an appropriate disclaimer to personal accounts when naming the school.

Process for creating new accounts

The school community is encouraged to consider if a social media account will help them in their work, e.g. a history department Twitter account, or a "Friends of the school" Facebook page. Anyone wishing to create such an account must present a business case to the School Leadership Team which covers the following points:-

- The aim of the account
- The intended audience
- How the account will be promoted
- Who will run the account (at least two staff members should be named)
- Will the account be open or private/closed

Following consideration by the SLT an application will be approved or rejected. In all cases, the SLT must be satisfied that anyone running a social media account on behalf of the school has read and understood this policy and received appropriate training. This also applies to anyone who is not directly employed by the school, including volunteers or parents.

Monitoring

School accounts must be monitored regularly and frequently (preferably 7 days a week, including during holidays). Any comments, queries or complaints made through those accounts must be responded to within 24 hours (or on the next working day if received at a weekend) even if the response is only to acknowledge receipt. Regular monitoring and intervention is essential in case a situation arises where bullying or any other inappropriate behaviour arises on a school social media account.

Behaviour

- The school requires that all users using social media adhere to the standard of behaviour as set out in this policy and other relevant policies.
- Digital communications by staff must be professional and respectful at all times and in accordance with this policy. Staff will not use social media to infringe on the rights and privacy of others or make ill-considered comments or judgments about staff. School social media accounts must not be used for personal gain. Staff must ensure that confidentiality is maintained on social media even after they leave the employment of the school.
- Users must declare who they are in social media posts or accounts. Anonymous posts are discouraged in relation to school activity.
- If a journalist makes contact about posts made using social media, staff must follow the school media policy before responding.
- Unacceptable conduct, (e.g. defamatory, discriminatory, offensive, harassing content or a breach of data protection, confidentiality, copyright) will be considered extremely seriously by the school and will be reported as soon as possible to a relevant senior member of staff, and escalated where appropriate.
- The use of social media by staff while at work may be monitored, in line with school policies. The school permits reasonable and appropriate access to private social media sites. However, where excessive use is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
- The school will take appropriate action in the event of breaches of the social media policy. Where conduct is found to be unacceptable, the school will deal with the matter internally. Where conduct is considered illegal, the school will report the matter to the police and other relevant external agencies, and may take action according to the disciplinary policy.

Legal considerations

- Users of social media should consider the copyright of the content they are sharing and, where necessary, should seek permission from the copyright holder before sharing.
- Users must ensure that their use of social media does not infringe upon relevant data protection laws, or breach confidentiality.

Handling abuse

- When acting on behalf of the school, handle offensive comments swiftly and with sensitivity.

SWGfL Online Safety School Policies adapted for use at St. Charles' RCP School

- If a conversation turns and becomes offensive or unacceptable, school users should block, report or delete other users or their comments/posts and should inform the audience exactly why the action was taken
- If you feel that you or someone else is subject to abuse by colleagues through use of a social networking site, then this action must be reported using the agreed school protocols.

Tone

The tone of content published on social media should be appropriate to the audience, whilst retaining appropriate levels of professional standards. Key words to consider when composing messages are:

- Engaging
- Conversational
- Informative
- Friendly (on certain platforms, e.g. Facebook)

Use of images

School use of images can be assumed to be acceptable, providing the following guidelines are strictly adhered to.

- Permission to use any photos or video recordings should be sought in line with the school's digital media policy. If anyone, for any reason, asks not to be filmed or photographed then their wishes should be respected.
- Under no circumstances should staff share or upload student pictures online other than via school owned social media accounts
- Staff should exercise their professional judgement about whether an image is appropriate to share on school social media accounts. Students should be appropriately dressed, not be subject to ridicule and must not be on any school list of children whose images must not be published.
- If a member of staff inadvertently takes a compromising picture which could be misconstrued or misused, they must delete it immediately.

Personal use

- Staff
 - Personal communications are those made via a personal social media accounts. In all cases, where a personal account is used which associates itself with the school or impacts on the school, it must be made clear that the member of staff is not communicating on behalf of the school with an appropriate disclaimer. Such personal communications are within the scope of this policy.
 - Personal communications which do not refer to or impact upon the school are outside the scope of this policy.
 - Where excessive personal use of social media in school is suspected, and considered to be interfering with relevant duties, disciplinary action may be taken
 - The school permits reasonable and appropriate access to private social media sites.
- Pupil/Students
 - Staff are not permitted to follow or engage with current or prior pupils/students of the school on any personal social media network account.
 - The school's education programme should enable the pupils/students to be safe and responsible users of social media.
 - Pupils/students are encouraged to comment or post appropriately about the school. Any offensive or inappropriate comments will be resolved by the use of the school's behaviour policy
- Parents/Carers
 - If parents/carers have access to a school learning platform where posting or commenting is enabled, parents/carers will be informed about acceptable use.
 - Parents/Carers are encouraged to comment or post appropriately about the school. In the event of any offensive or inappropriate comments being made, the school will ask the parent/carer to remove the post and invite them to discuss the issues in person. If necessary, refer parents to the school's complaints procedures.

Monitoring posts about the school

- As part of active social media engagement, it is considered good practice to pro-actively monitor the Internet for public postings about the school.
- The school should effectively respond to social media comments made by others according to a defined policy or process.

Appendix

Managing your personal use of Social Media:

- “Nothing” on social media is truly private
- Social media can blur the lines between your professional and private life. Don't use the school logo and/or branding on personal accounts
- Check your settings regularly and test your privacy
- Keep an eye on your digital footprint
- Keep your personal information private
- Regularly review your connections - keep them to those you want to be connected to
- When posting online consider; Scale, Audience and Permanency of what you post
- If you want to criticise, do it politely.
- Take control of your images - do you want to be tagged in an image? What would children or parents say about you if they could see your images?
- Know how to report a problem

Managing school social media accounts

The Do's

- Make it clear who is posting content
- Use an appropriate and professional tone
- Be respectful to all parties
- Ensure you have permission to 'share' other peoples' materials and acknowledge the author
- Express opinions but do so in a balanced and measured manner
- Think before responding to comments and, when in doubt, get a second opinion
- Seek advice and report any mistakes using the school's reporting process

The Don'ts

- Don't make comments, post content or link to materials that will bring the school into disrepute
- Don't publish confidential or commercially sensitive material
- Don't breach copyright, data protection or other relevant legislation
- Consider the appropriateness of content for any audience of school accounts, and don't link to, embed or add potentially inappropriate content
- Don't post derogatory, defamatory, offensive, harassing or discriminatory content
- Don't use social media to air internal grievances

Glossary of Terms

| | |
|-------------------|--|
| AUP / AUA | Acceptable Use Policy / Agreement - see templates earlier in this document |
| CEOP | Child Exploitation and Online Protection Centre (part of UK Police, dedicated to protecting children from sexual abuse, providers of the Think U Know programmes). |
| CPD | Continuous Professional Development |
| FOSI | Family Online Safety Institute |
| ICO | Information Commissioners Office |
| ICT | Information and Communications Technology |
| ICTMark | Quality standard for schools provided by NAACE |
| INSET | In Service Education and Training |
| IP address | The label that identifies each computer to other computers using the IP (internet protocol) |
| ISP | Internet Service Provider |
| ISPA | Internet Service Providers' Association |
| IWF | Internet Watch Foundation |
| LA | Local Authority |
| LAN | Local Area Network |
| MIS | Management Information System |
| NEN | National Education Network - works with the Regional Broadband Consortia (e.g. SWGfL) to provide the safe broadband provision to schools across Britain. |
| Ofcom | Office of Communications (Independent communications sector regulator) |
| SWGfL | South West Grid for Learning Trust - the Regional Broadband Consortium of SW Local Authorities - is the provider of broadband and other services for schools and other organisations in the SW |
| TUK | Think U Know - educational online safety programmes for schools, young people and parents. |
| VLE | Virtual Learning Environment (a software system designed to support teaching and learning in an educational setting, |
| WAP | Wireless Application Protocol |
| UKSIC | UK Safer Internet Centre - EU funded centre. Main partners are SWGfL, Childnet and Internet Watch Foundation. |
